Maratek Engineer to Order Solutions

Do You Have Existing Equipment or Technologies?

Our integration team will develop a customized solution to ensure your existing equipment works seamlessly with Maratek systems.

Working with Maratek

After reviewing your application we will use our years of engineering experience, modern computer modeling & simulation technology, and world-class control systems to provide you a state-of-the-art automated solution with consistent results.

Our manufacturing facility and team of in-house engineers places us at the forefront of design, implementation, integration, and service.

Founded in 1967, our history as a company comes from the solvent processing and recycling industries. Maratek has remained a trusted partner, offering the expertise needed to develop solutions for complex liquid-liquid and liquid-solid processing applications worldwide.

Plant Engineering Consulting Services

- Plant engineering, layouts & design services
- Project management
- Safety consulting
- Building and room design
- Production optimization
- Explosion proof safety
- Compliance verification
- Equipment training & education
- Utility optimization & energy reduction
- Custom equipment engineering
- Automated sample collection
- Research & development agreements and engineering contracts
- Intellectual property agreements & sharing
- Engineered compliance certification
- Data logging and tracking

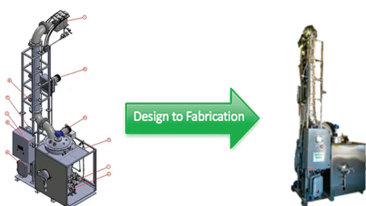

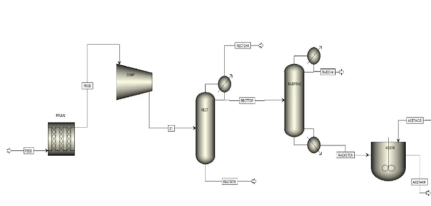

Benefits of Maratek Engineering Solutions

- Maratek products are designed to help automate your production process
- Closed loop systems and solvent recovery save on production and input costs
- Our experienced engineers build systems designed specifically for your operation
- End-to-end project management support allows for tailored customization
- Our diverse range of experience enables the development of software designed to address unique challenges

Engineering Services from Maratek

Maratek has over 50 years experience in industrial applications. We have encountered and solved a wide variety of production, safety, utility, optimization, automation, and management related issues in real world production settings. Let us use this experience to create a solution optimized for your application.

About Maratek

Maratek is an award-winning industry leader in solvent recycling. We strive for the highest safety and quality standards with all our equipment designated as Class 1 Division 1 certified, and UL listed using only North American stainless steel, parts, and labor.

For over 50 years, Maratek has been engineering and manufacturing environmentally-friendly, high quality products that recycle solvents for the printing, battery manufacturing, coating, automotive, aerospace, food, paint, finishing, fiberglass, kitchen, pharmaceutical, and packaging industries.

We have many solvent recovery and recycling equipment solutions to help you stay competitive. Maratek can also provide custom engineering solutions to suit your solvent recovery and recycling needs.

The Maratek Family of Solvent Recovery Equipment & Services

Solvent Saver Batch - SSB

Solvent Saver Batch Premium - SSBP

Solvent Saver Continuous - SSC

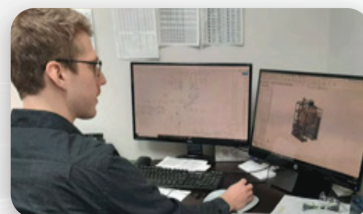

Fractional Distillation

Solvent Saver Flexo - SSF

Engineering Services

References available upon request with installation in facilities across the US, Canada and globally.
