

# Share The Savings

## Risk Free Solvent Equipment

### Why Share the Savings?

Reduce Solvent expenses with no upfront costs.

Save at least **50%**!

#### STEP 1

### Application Review

We review your solvent, waste, and recovery needs to discover which machine matches your facility and how it can fit into your existing floorplan.

### Savings Review

#### STEP 2

We will select the right equipment based on your application and show you the savings options.

#### STEP 3

### Installation & Training

A technician will be sent to set up the system and perform recovery tests to optimize operating parameters and ensure satisfaction.

### Support and Maintenance

#### STEP 4

We will handle monitoring the systems performance remotely and provide support and maintenance as needed.
